HIS LAST LECTURE

DR. JOHN CLOSED HIS SERIES OF TALKS ON SUNDAY.

MOST NOTABLE EVENT

In the World's History Was Discussed Sunday Morning by Dr. John at the First M. E. Church.

John P. D. John closed his series of lectures on The Religion of the Future Sunday evening at the First M. E. Church to a union meeting of the young peoples' societies of the protestant churches. Every one of his lectures were well attended and enjoyed by all. Sunday morning, Dr. John occupied the pulpit of the First M. E. Church and his lecture subject was "The Christ of Mount Hermon, or the Most Notable Event in History." An abstract of the sermon follows:

"Let us suppose that Christopher Columbus, whose genius put a new continent on the map of the world, thus providing a matchless domain for the unborn republic, and George Washington, the illustrious father of his country, had come out of the unseen world at midnight of December, 1862, to hold converse with Abraham Lincoln, the greatest soul of the nineteenth century, what will these colossal figures of history talk about? They will talk of the most notable event in American history since the Declaration of Independence—the immortal proclamation of emancipation, which was that day to echo around the world.

When Moses, the greatest man of the ancient world, and Elijah, the most picturesque prophet of Israel, come out of the invisible world to hold converse with the Eternal Son of God on Mt. Hermon, what shall be the topic of their conversation? Here is their theme: "They spake of the decease which He should accomplish at Jerusalem." The voluntary death of Jesus Christ on the cross of Calvary is the most notable event in human history. It is the culminating point of all previous history and the starting point of all subsequent history.

Yonder is Mt. Shasta in the coast range of the Pacific slope. Look at it from the far north; the foot hills are below the horizon, but the white peak of the great mountain is projected against the southern sky. Move southward past its base and on through the labyrinths of the foot hills, and from the far south look backward to the north. The foot hills are gone, but the solitary peak in silent majesty stands out in clear view against the northern sky.

So Mt. Calvary stands, a mountain peak in human history, seen in advance by Abraham Lincoln centuries before, towering above all the foot hills of the coming ages, and seen, looking backward by the present age still overtopping all the summits of subsequent centuries. God gave Abraham the vision and with the vision a promise, which God himself could not break, and which all opposing forces could not defeat. The prophets heard of the promise and caught the vision of Mt. Calvary. All down the centuries between Abraham and Calvary, God took care of His promise, and the successive generations watched for its culmination. At the very beginning the promise seemed impossible of fulfillment, and all along the generations following it was threatened with defeat. But God kept His eye upon it, intervening by the direct outstretching of His Almighty arm whenever it was in danger of overthrow; until at last it culminated in the most momentous event of human history—the voluntary death of Jesus Christ for the sins of the world. I say "voluntary death," for His decease, or departure, was something that He, Himself, was to accomplish. "They spoke of the departure which He was to take from Jerusalem."

The death of Jesus Christ was not forced upon Him. He, Himself, accomplished His "departure from Jerusalem." He could have swept His crucifiers from the earth with a word but He could not do what He came to do, and not suffer death. And what He came to do was the greatest thing that ever happened to mankind. He came to show God to men as they had never before seen Him, and as they never could see Him except through the infinite sacrifice on the cross.

There was one word God could not fully speak to men, except through the uplifted Christ on Calvary. I have seen little children with the stamp of genius upon them whose ideas outran their words. I have seen them struggle in the vain attempt to express in language the burning thoughts that were consuming them. I have seen their muscles tense, their tortions, their muscles tense, their nerves all a quiver, trying to find the words to express the thoughts that were on fire within their souls.

Thus, if the finite can illustrate the infinite, God endeavored for ages to convey to men an adequate idea of His character. The universe, figuratively speaking, groaned and was in travail to utter forth His full name. But men could not understand. They caught a part of His name in the inarticulate voice of nature. They heard and partly understood some of the words describing His name. They could catch the words, power, majesty, knowledge, wisdom, justice, goodness, yea, even mercy, but there was one word that could not be uttered by the lips of nature. There was one word which, in its full significance, surpassed the power of even inspired prophets to utter. There was one word which, in its infinite heights and lengths and breadths and depths, waited for Mt. Calvary to utter—the word which, when once uttered, men knew was what they had been longing for through all the centuries. That word is love. To measure the full sweep of that word, one must be able to sound infinite depths with a finite plumbline and to reach infinite heights on finite pinions. Love. The word is easily spoken, and easily understood, if we take it in its fullest meaning before Calvary had its cross. But Calvary put a new meaning into the word; a meaning which the world had waited for, but had never fully grasped before. Until Mt. Calvary, there was always more or less a tinge of selfishness in love, on Calvary was revealed a love free from all traces of selfishness; and men are beginning to see now, as never before, that unselfish love is the highest law of life.

If the death of Christ was of sufficient importance to be the topic of conversation when heaven and earth met together for one brief hour, shall men and women in this day talk of everything else under the sun and pass Mt. Calvary by? Shall preachers discourse on other themes to the large exclusion of the one great theme they have been called of God to expound?

Let us never forget that when we are preaching Jesus Christ to our fellow men as the hope of the world, either in the pulpit or in our odinary vocations, we are talking upon a theme which brought heaven and earth together on the summit of Mt. Hermon.

BORCHERS CASE UP

THE $10,000 DAMAGE SUIT IN CIRCUIT COURT TODAY.

After It Was Discovered That Plaintiff Had Gone to a Saloon—Other Cases Disposed Of.

The $10,000 damage case of Pearl Borchers, by next friend, Grant Borchers, vs. John Hoshor, was being tried this afternoon in circuit court as we went to press. It is one of the most sensational cases to be tried at this term of court, and the court room was crowded. The jury in the case is composed of Thomas Tobin, Rudolph Lebonia, Charles Talbott, Ed Crane, John McKee, Charles Crawford, E. S. Frampton, M. C. Gray, J. W. Corcoran, Tom Archer, George Ulmer and Lester Ellis. The attorneys in the case are Charles McCaffrey and W. E. Wiles for the plaintiff, and Shinabargar, Blagg & Ellison for the defendant.

The case of Thomas Ashbrook vs. William I. Gray for $5,000 damages, being a suit in which the plaintiff claims that the affections of his wife were alienated by the defendant, was called in court Monday morning. B. R. Martin of St. Joseph, attorney for Ashbrook, was making his statement to the jury when his attention was called to the fact that his client, Ashbrook, was not in the court room. It was finally discovered that Ashbrook had left the court room and was seen to enter Kane's saloon, and when this announcement was made in court the attorneys for Ashbrook at once dismissed the case.

The jury in the replevin suit of James A. Burch vs. Guy Clary and Henry Weber brought in their verdict late Saturday afternoon for the plaintiff. The verdict was as follows:

"We, the jury, find for plaintiff that at the commencement of the suit on March 3, 1913, he was the owner and entitled to the possession of the property described in the petition as six brood sows and thirty shoats."

In the will contest case of John Hogan et al. vs. Peter Mergen et al., which was decided for the defendant last week, the plaintiffs filed a motion for a new trial.

Lena McCartney vs. the Western School company, defendant filed motion for a new trial.

American Cable company vs. W. F. Johnson, account, defendant defaulted and finding for the plaintiff.

SENT FOR 2 YEARS

FRED LITTEN RECEIVED THAT SENTENCE TODAY.

JAMES GIVEN 6 MONTHS

In the County Jail—He is Wanted in St. Joseph for Robbery—A Number of Other Cases.

Fred Litten, alias Charley Walker, charged with forgery, was given a sentence of two years in the penitentiary in circuit court Monday morning. Litten is a young man about twenty-five years old and was accused of forging the name of his uncle, Ed Bell, a farmer living near Alanthus, to a check for $16.50 on the Merchants and Mechanics bank of Stanberry. Litten said that he was intoxicated when he committed the crime and pesented a petition for parole signed by many of the prominent citizens of Stanberry.

In passing sentence Judge Ellison made the following statement:

"I have read the petition in this young man's behalf, asking for a parole It is signed by the leading business men of Stanberry, where the boy's relatives live, if he does not reside there himself, I have a very high regard for the petitioners, but I cannot see my way clear to parole him under the circumstances of the case.

"This young man has heretofore committed a very degrading offense, the crime of larceny. In that instance he had all the experiences that are involved in the prosecution of crime, and in serving out the sentence as a result of the trial. If those experiences were not sufficient to be a lesson to him for the remainder of his life, if, notwithstanding those experiences he has, at this date, committed the offense with which he is charged, and to which he pleads guilty, it indicates very clearly to my mind that he needs a severer lesson than he has had in order that he may become a useful citizen, if, indeed, there is any hope that he will ever become one. I like to parole young men when I have reason to believe that the offense with which they are charged is the first offense, and have reason to hope that the lesson will be a lasting one and will cause a permanent reformation. That is not this case. To parole this man now means merely to turn him out on society to prey upon it again."

Jack James, charged with carrying concealed weapons, pleaded guilty to the charge and was given a sentence of six months in the county jail. The court in passing sentence said that James was wanted in St. Joseph on a charge of robbery and that his sentence was made only six months here to give St. Joseph a chance to send him for a longer time than the court could do here.

John Fisher, Jr., running an auto while intoxicated, continued by agreement.

Roy Zancker, disturbing the peace, defendant having been thrice called for trial in open court and failing to appear without cause, his bond is forfeited.

Frank Shelton, stealing chickens by night, continued by state on account of escape of defendant from jail.

The following cases were nolle pros: Fred Bagby, carrying concealed weapons; Charles Kent, two charges of violating the local option laws; John Little and Ray Graves, disturbing the peace.

Vessie L. Walker, alias J. W. Wheeler forgery, pleaded not guilty and bail fixed at $1,000. W. A. Blagg and John M. Dawson appointed by the court as attorneys for the defendant and cause set for Friday.

Sherman A. Munn, charged with assault with intent to kill, defendant pleaded not guilty and bail fixed at $2,000. and cause set for Friday.

Many appeared in court Monday that were indicted by the recent grand jury. They were:

Charley Phillips, gaming, pleaded guilty on two counts. The fine was $25 and costs in each case.

A GREAT WELCOME

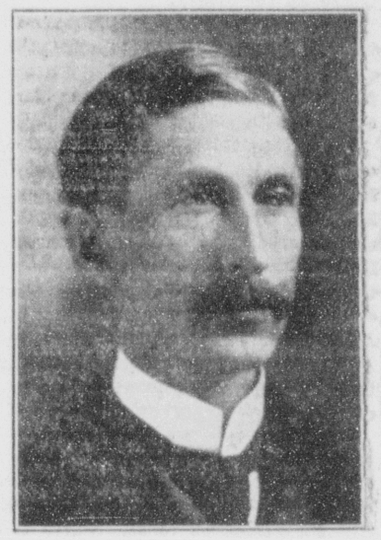
GIVEN DR. C. C. DRUMMOND BY HIS MARYVILLE SUPPORTERS.

IS STATIONED IN INDIA

Only Medical Missionary in the Territory of Harda, India, of 16,000 People.

A fine service was that held Sunday morning at the First Christian church, when the church's missionary pastor, Dr. C. C. Drummond, stationed at Harda, Central province of India, spoke to his Maryville supporters.

Dr. Drummond is a medical missionary. He was graduated from Cotner university of Lincoln, Neb., and left in 1897 for the foreign field, and has continued to work there since. He has been supported for eight years by the Maryville church. His four children were born in India, and he regards that country as his home. While on furlough here he makes Lincoln, Neb., his headquarters.



DR. C. C. DRUMMOND.

He was given a great welcome Sunday morning when he arose to speak, when the pastor, Rev. Robert L. Finch, and the entire congregation stood and, in unison, among other things, said:

"Welcome, Dr. Drummond. You went out to do battle for Christ in India. The struggle has been fierce. Sometimes we have forgotten you. Sometimes we have not even prayed for you. But you have struggled on. Your service has told mightily for God. You have so lived out there that you come to us as one of the greatest ministers of Christ on any mission field. We rejoice in your presence."

Dr. Drummond is the only medical missionary in the territory of Harda, which has 16,000 people. There are three other missionaries working in other departments of the field for which they are responsible, a territory twenty-five miles square and having 131,000.

In 1911, during a scourge of the awful bubonic plague, when people were dying by thousands in India, Dr. Drummond remained at his post, the physician in charge for the British government left to save his life. For this act Dr. Drummond was decorated with a handsome medal by King George and Queen Mary of England. He speaks very highly of the effort the British government is making to better the conditions of the people of India, and says that the government is materially assisting the missionaries. The government is putting in water works throughout the land, ordering vaccination for various diseases, and is, he believes, doing all it can at the present time for the health and education of the people.

When he left for America on furlough he was presented a beautifully carved silver case, or casket it is termed in India, at the city hall, where the people and officials of the city had gathered to do him honor, which contained expressions of love and appreciation from his co-workers and from the citizens of the city, printed on white silk in the form of a scroll, and gave it to him as a memento of their love.

Dr. Drummond went to Pickering to speak Monday afternoon and will remain here until Thursday.

DIED IN NEW MEXICO.

Youngest Son of Mrs. J. S. Ford of This City a Victim of Tuberculosis.

Mrs. J. S. Ford received a telegram Sunday night announcing the death of her son, John Wesley Ford, at Organ, N. M., on Sunday afternoon at 2:30 o'clock.

The body will arrive in Maryville Tuesday noon on the Burlington train, accompanied by Miss Alice Ford, who left Maryville Friday evening in response to a telegram informing them of his dangerous condition. The funeral services will be held Tuesday afternoon at 3 o'clock at the First M. E. church, where the young man's father, the late Dr. J. S. Ford, was pastor at the time of his death in September, 1912. The services will be conducted by Presiding Elder W. B. Christy, assisted by Rev. Gilbert S. Cox, and Rev. S. D. Harkness. Burial will take place in Miriam cemetery.

Mrs. Ford returned last fall from a visit with her sons, Stanley and John Wesley Ford, at Cristobal, Canal Zone, Panama, where she went in February, accompanied by her youngest daughter, Merl. On her arrival there she found her youngest son, John Wesley, in poor health. Two days before her arrival he had gone to a physician at the U. S. government office and was examined as to the condition of his lungs. The surgeon advised him to leave as soon as possible for a more northern climate, recommending the mountainous section of New Mexico. He left in a month after Mrs. Ford's arrival and seemed to improve considerably, but took a sudden turn for the worse recently.

He was born in Abilene, Kan., January 13, 1890, making him a few days past 24 years of age. He was a graduate of the Kansas City, Kan., high school, a member of the Phi Delta Kappa fraternity, holding his membership in the Kansas City, Kan., chapter. He also graduated from Clark Business college of Kansas City, and the year following was employed by the Remington Typewriter company. He left that occupation to take a position with the Pittsburg Plate Glass company, and resigned later and left in November, 1911, to take a government position in the subsistence department at Cristobal, in Panama. He was in the canal zone two and a half years. His brother, Stanley Ford, is manager of the government printing establishment at the same place. Mr. Ford spent two months in Arizona after leaving Panama, and went to Organ, N. M., from there. He was a member of the Methodist Episcopal church, having united at the age of 7 years. The deceased is survived by another sister, Miss Gladys Ford.

"FATTY" MOBERLY IS SICK.

Our Big Chief of Police is Victim of the Grip and Friends Are Trying to Keep Him From Want.

Chief of Police Elmer Moberly had to give up Saturday and go to bed from an attack of the grip. He had it awful bad, because there is so much of him to get sick.

Saturday morning Mayor Robey phoned to the residence and asked Mrs. Moberly if there was anything they needed, as he was endeavoring to attend to all the needy sick, especially this cold weather. She replied that he might send a few things, but no beans or corn meal, as they did not eat such things. (This reminded the mayor of his experience with the Jameses.)

In a little while Berney Harris, for the Woodmen lodge, had ordered quite a number of packages "a nickel's worth" of each, and sent them down, and the men's class of the Baptist Sunday school, to which the big chief belongs to, sent him a lot of other tiny packages with some good words along with them; then the Twenty-Two club that looks after sick people responded generously, and the Owls lodge, which met with a severe rebuke and prohibitary measure a few weeks ago, sent a "last chance" package. All of the packages numbered about 200, enough to make any boy, big or little, sit up and count his blessings and forget his sickness.

Then Mayor Robey sent a letter along with the consignment saying if Chief Moberly did not get better to let him know and he would send Dr. Leech to see him.

The patient was up and around Monday.

ESTANOL MAKES GETAWAY

Deputy Is Smuggled Out of Mexico City by O'Shaughnessy.

Mexico City, Jan. 23.—Jorge Vera Estanol, one of the 110 deputies thrown into jail by President Huerta on Oct. 10, 1913, was smuggled out of town by Nelson O'Shaughnessy, American charge d' affaires, and sent safely on his way to Vera Cruz.

Senor Estanol is a prominent attorney and was minister of public instruction in the late President Madero's cabinet. He was released from the penitentiary by court order.

Senor Estanol and his friends, believing that his life was in danger, appealed to Mr. O'Shaughnessy, who got a private car and with great secrecy put Senor Estanol on board. The car was then attached to the regular train for Vera Cruz, from which port it is assumed Senor Estanol will sail at once.

CHAIRMAN ADAMSON.

SAY WILSON WILL KEEP GOETHALS

President to Name Him as Head of Canal Zone.

Washington, Jan. 26.—Several persons close to the administration, in commenting on reports that Colonel George W. Goethals would become commissioner of police of New York city, expressed the opinion that he will be made civil governor of the canal zone and when he gets through with his work there an effort will be made to get him to superintend the construction of the proposed Alaskan railway.

Mayor Mitchel of New York is expected here on Wednesday to speak at a banquet and it is likely that he will talk with President Wilson about the status of Colonel Goethals. It is believed the president will tell Mayor Mitchel that he is strongly desirous of keeping Colonel Goethals, so that his engineering ability may not be lost to the United States government.

The president has from the beginning favored the one-man plan of government for the canal zone, as proposed by Colonel Goethals, in opposition to a commission. Secretary Garrison has agreed and it was stated authoritatively that the administration has intended from the first to name Colonel Goethals as the first civil governor.

Friends Oppose Acceptance.

Panama, Jan. 26.—Friends of Colonel George W. Goethals have strongly advised him against acceptance of the post of commissioner of police in New York, tendered the canal builder by Mayor Mitchel. It is believed that their views have had great weight with him.

PLANS TO DECORATE CANAL

Many Propositions for Embellishment Suggested.

Washington, Jan. 26.—With the digging nearly done, the decoration of the Panama canal is a subject of renewed attention, aroused particularly by the suggestion from France that the early work of Ferdinand De Lesseps, the French engineer, be commemorated by a statue to him at some conspicuous point on the canal. This is but one of many ideas, however, and the whole question of embellishment of the waterway is still open.

The government of fine arts, made up of many of the leading sculptors and architects of the country, have already studied the problem of beautifying the canal, but its report which is awaiting action by congress has only one specific proposal for the commemorative monument. This is presented as follows:

"The commission of fine arts believes that a memorial record of the building of the canal should be made in the form of an impressive inscription upon a great monument surface at some point of prominence."

Winter Weather Is in Sight.

Thomas Merrigan of Clyde was transacting business in the city on Saturday.

"GHOST" IS USED IN "THIRD DEGREE"

Officers Fail to Get Confession From Druggist Grondin.

Los Angeles, Jan. 26.—In an effort to obtain from John P. Grondin, a young druggist, a confession to the murder of his wife, Zelia, the "third degree," with a "ghost" as the central figure, was used by arresting officers, according to a statement made public by his attorneys.

Grondin's counsel declared that shortly after he was arrested he was taken by detectives into a darkened room, where a "ghost" soon appeared and demanded in gloomy tones: "Why did you murder me?"

His attorneys said they considered such methods outrageous, but at the same time positive proof of their client's innocence, as the shadowy form and the dismal question alike failed to move him or to obtain from him the slightest admission of guilt.

Grondin, who was charged with having poisoned his wife and with having attempted to establish that she killed herself by inhaling gas, was said by the police to have tried once before, while living in Portland, Me., to kill his wife, but for some reason had been afraid to complete the act and had resuscitated her.

LYNCHERS FEAR CONFESSION

Members of Mob That Hanged Wife Murderer in 1886 Uneasy.

Bloomington, Ill., Jan. 26.—Whether it be the hangman's noose, life imprisonment, or a few years' incarceration in the dungeon of a penitentiary, Reason Trigg will be content. He is the happiest prisoner in the Piatt county jail at Monticello, following his astounding confession that he was the leader of the mob which lynched Henry Wildman at Monticello on the night of Oct. 13, 1886. He gave himself up to the sheriff and asked to be punished.

Trigg says he was converted to Christianity and his conscience gave him no peace until he confessed his guilt. Now all those in the mob of which Trigg was a part are disturbed over his unexpected action in reviving a dark chapter of the history of the district.

TOO MANY MEN ON COAST

California Trades Council Denounces Advertising That Has Drawn Them.

San Jose, Cal., Jan. 26.—Alleged false advertising in the east by railroad and steamship companies and real estate firms, designed to attract workingmen to California by assuring them of employment in connection with the Panama-Pacific exposition, was denounced in resolutions adopted by the state building trades council. It was asserted that the labor market was over stocked and that the cities of California were already caring for thousands of penniless unemployed men and women, deceived by this advertising.

Baby Is Sent by Parcel Post.

Hoquiam, Wash., Jan. 26.—A lusty kicking infant was delivered by parcel post here. The "package," which weighed twenty pounds, was sent by Assistant Postmaster Jesse Havens, prepaid, from Olympia to the home of a relative here, Mrs. Havens having been taken ill. The distance is sixty miles.

Five Killed in Michigan Wreck.

Jackson, Mich., Jan. 26.—Five persons were killed and a large number injured in a collision between freight and passenger trains on the Michigan Central railway, about eight miles outside of Jackson. The collision occurred on the River Junction division of the road.

INDIGESTION, GAS OR SICK, SOUR STOMACH

Time It!—"Pape's Diapepsin" Makes Your Upset, Bloated Stomach Feel Fine in Five Minutes.

"Really does" put bad stomachs in order—"really does" overcome indigestion, dyspepsia, gas, heartburn and sourness in five minutes—that—just that—makes Pape's Diapepsin the largest selling stomach regulator in the world. If what you eat ferments into stubborn lumps, you belch gas and eructate sour, undigested food and acid; head is dizzy and aches; breath foul; tongue coated; your insides filled with bile and indigestible waste, remember the moment "Pape's Diapepsin" comes in contact with the stomach all such distress vanishes. It's truly astonishing—almost marvelous, and the joy is its harmlessness.

A large fifty-cent case of Pape's Diapepsin will give you a hundred dollars' worth of satisfaction or your druggist hands you your money back.

It's worth its weight in gold to men and women who can't get their stomachs regulated. It belongs in your home—should always be kept handy in case of a sick, sour, upset stomach during the day or at night. It's the quickest, surest and most harmless stomach doctor in the world.—Advertisement.

NORMAL SCHOOL NOTES.

State Superintendent W. P. Evans was a visitor at the Normal school Monday and gave a short talk to the student body during the assembly hour.

* * *

The assembly hour Wednesday morning was given over to the yell leaders, Ray McPherren and Frank McKee, who had the entire student body and faculty practicing on yells and songs for the Warrensburg game. The treatment certainly "took," for a team was never more loyally supported than were the green and white warriors, even when they were being defeated by the Warrensburg team. Indeed, the yells and songs were so loud and continuous that the referee took a notion that he was entirely too inconspicuous in all that uproar, and asked several times that the excessive racket be sent on a short vacation. But the fans held no grudge against him, for he was a pretty fair sort of referee after all.

* * *

The Normal school basket ball team will meet the Missouri Wesleyan team on the Normal school court on next Friday night.

* * *

The two literary societies have been displaying considerable spirit and friendly rivalry lately. Several days ago the Philomatheans, without any warning, rose up in assembly and let out a series of yells, some of which referred in no uncertain terms to the Eurekans. Naturally the Eurekans have been just 'pinin'" for revenge ever since. Yesterday morning when every one had just gotten dettled down in the assembly hall and were ready for the first song there came a burst of sound from the Normal stage. The nature of the yells told that the Eurekans were the ones who were responsible. And pretty soon here they came marching down into the main assembly room, every one peering intently at the audience through monacles, opera glasses and microscopes. Then came the call "What are you looking for?" and the answer, "Where are those Philomatheans?" Then after each society had given a yell or two they subsided, and the Eurekans at least decided that justice had been done.

Those just bordering upon the time when they need glasses will do well to attend to it at once, while those already wearing them should see to it that they still fit as they ought to. Good eyesight can be fostered just as you can preserve anything else with proper care.

PEACE WHEN REBELS TRIUMPH

Carranza Sends Reply to Flood of Messages He Receives.

COME FROM PEACE SOCIETIES.

Constitutionalist Leader Attributes It All to Huerta and Declares His Agents Have Stirred Up Public Sentiment—Are Avenging Madero.

Culiacan, Mex., Jan. 26.—General Carranza sent the following brief reply to a flood of messages from peace societies in Europe who asked for peace in Mexico: "At the triumph of the cause of the constitutionalist order, which we represent, peace will be established in my country."

All of these messages, which were received in the last two days, asked for general peace in Mexico. They were sent by societies in foreign lands, Russia, Belgium, Portugal, Switzerland, Poland and Spain.

This simultaneous action gave rise to much speculation among General Carranza's advisers, and the opinion was expressed freely that it had been brought about by some action of the Huerta government at Mexico City through its agents in Europe.

The press alone was used in answering the communications from peace societies. General Carranza personally answered a number of messages from prominent Spanish publicists and politicians. All of his answers to the Spanish inquiries contained some reference to the Mexico City rising of February, 1913, in which President Madero was killed. It was pointed out that the Spanish residents of Mexico could be barred in some districts for assisting in the Huerta movement.

Outlook for Villa.

Chihuahua, Jan. 26.—What will be the immediate fortunes of General Francisco Villa's army of 15,000 or more rebels when they pass south of Torreon into the central states of Mexico received serious consideration by the rebel leaders. That the rebels will take Torreon they have every confidence, although General Velasco, the federal commander at that point, is believed to be acting on orders from Mexico City to check the revolution there if possible. But what will happen after the defeat of the Torreon federal garrison, should they be defeated, is not so clearly defined in the mind of General Villa.

TO FLY LANGLEY'S MACHINE

Aviator Beachey Will Demonstrate Inventor's Idea Was Good.

San Francisco, Jan. 26.—The Smithsonian institute at Washington accepted by telegraph an offer of Aviator Lincoln Beachey to demonstrate the possibility of successful flight in the "flying machine" invented and built by Professor Samuel P. Langley. Derision excited when Langley's machine fell into the Potomac river is said to have broken his heart. Beachey will try to show that the machine was right in every way and needed only a better motor.

A telegram received from Charles Doolittle Walcott, director of the Smithsonian institution, said that while it would be inadvisable to take out the wrecked machine from its place in the institution, every facility would be afforded to make a perfect reproduction, in order that Langley's real success may be shown.

"You can fly a kitchen table, if your motor is strong enough," said Beachey. "This is what I want to show."

Beachey looped his sixty-seventh loop in sixty days here in a high wind.

BRIDE FATALLY INJURED

Porch Crashes Down at a Wedding Dance at Aurora, Ill.

Aurora, Ill., Jan. 26.—A merry wedding celebration was suddenly transformed into a tragedy when a porch collapsed beneath the weight of fifteen dancers and they fell twenty feet to the ground. The laughing, joking guests of a few minutes before were shrieking in pain or fright when half the population of "Little Hungary" turned out to the rescue.

Mrs. Florence Bish, the bride of the hour, was perhaps fatally injured. At a hospital it was found her internal injuries were serious and that both arms were sprained. Her husband, Joseph Bish, is in the same hospital, but in another ward, with a broken arm and internal injuries.

British Aviator Killed.

JOINT HEARINGS WILL BE HELD

Democratic Leaders Plan to Expedite Anti-Trust Program.

JUDICIARY BODIES TO DECIDE.

Selection of Subjects Will Be Made When Committees Meet—Agreement Reached at Conference Held at Home of Senator Newlands.

Washington, Jan. 26.—At a conference at the home of Senator Newlands, participated in by majority members of the senate committee on interstate commerce and Representatives Clayton, Floyd and Carlin of the house judiciary committee, co-operation of committees in both houses was agreed upon as essential to the best and quickest results in carrying to completion the anti-trust program outlined to congress last week by President Wilson, and to this end the suggestion of joint hearings on the bills already prepared met with general favor. That it would be a waste of time for the house committees to hold hearings and the senate committees to follow with others was the unanimous opinion expressed. Chairman Clayton agreed to submit the subject to the judiciary committee for decision.

To Curtail Hearings.

The conferees further agreed that subjects which recently have thoroughly been inquired into by committees of congress should be dismissed as briefly as possible and that representative men who are known to have reasonable ideas be called upon for suggestions. Such men would include members of congress outside the committees and leaders in the commercial thought of the country.

There was a general discussion among the conferees of the anti-trust measures with a view to their improvement, but no changes were determined upon. Several suggestions were offered relating to a proposed amendment prohibiting holding companies. An effort will be made to begin the hearings next week, the first bills to be taken up being those relating to prohibition of interlocking directorates, definitions of restraints of trade and "cutthroat" competition.

Ready March First.

The aim of the committee, it was said, would be to have the program ready for congress by March 1.

Further joint conferences of committees in charge of trust legislation will be held and tomorrow the house judiciary committee will pass upon proposed plans for hearings on the bills submitted.

Besides plans for hearings, the subcommittee, composed of Representatives Clayton, Floyd and Carlin, proposes to confer with the president and administration leaders on an amendment to the trade relations bill, which would prohibit holding companies. It was concerning this feature of the program that President Wilson has said he still is open minded.

The house interstate commerce and foreign commerce committee also is expected to meet during the week to take up the interstate trade commission bill. This committee and the senate interstate commerce committee will also begin deliberations on the proposed measure to give the interstate commerce commission authority to regulate the issuance of railroad securities.

READY FOR TRAINING CAMP

Major League Teams Expect to Have All Men Present.

New York, Jan. 26.—Ignoring the activity of the Federal league magnates in their quest for big league stars, club owners of the American and National leagues have completed their plans for the spring training campaigns and are issuing calls for the gathering of veterans and recruits.

Certain of the clubs, such as the Athletics and Giants, don't anticipate any trouble in showing virtually 100 per cent attendance, but the average magnate will not feel assured of his full enrollment until each member of the club has answered the roll.

The St. Louis Americans are scheduled to lead the march to the south on Feb. 14 and should be in action at St. Petersburg, Fla., a few days later.

The Boston Red Sox will be the last squad to report, not being due at Hot Springs until March 9. From a geographical standpoint, Florida is the favorite training ground. Of the sixteen clubs of the major league, four will prepare for the 1914 pennant battles there, the Athletics, Browns, Cubs and Cardinals. Georgia is next in line with the Clevelands, Boston Nationals and Brooklyns within its borders, while Texas and Arkansas come third with two clubs each.

Bandit Chase in Motor Car.

Omaha, Jan. 26.—A high power French automobile, capable of making close to eighty-five miles an hour, was brought into use by the Omaha police in the search for three young men who on foot and in stolen machines have nightly been holding up belated citizens. The bandits escaped.

Fairbanks Hotel Destroyed by Fire.

Fairbanks, Alaska, Jan. 26.—The Third Avenue hotel was destroyed by fire here and one man is believed to have been buried in the ruins. A fireman caught under a falling wall was badly hurt. The loss is about $25,000.
